Steven

Several things:

1. AW SoCG

Our thoughts on the AW SOCG travelling draft.

Although PINS has agreed that SoCG(s) can be lodged 23 August, I must draw to your attention significant diary commitments for us:

Today – meetings all PM

Tomorrow – planning committee chair /vice briefing for Thursday. PM meetings

Wednesday – Downlands CMC and all committee briefing

Thursday – planning committee , maybe some time late PM free depends on committee. I must say I doubt it as big agenda.

Friday - AM meeting, free PM to look at this.

2. CD list

We want to add some documents.

Do you want us to add them and track them?

Please advise, **this affects the AW evidence so I need your help today please if we are to meet the PINS deadline tomorrow.**

3. CD Liabry

We also need to build and host the CD library.

This will take us some time to add documents to the webpage. We need to action this soon.

Can I ask you / team to reach out to my colleague [@Manny Singh](#) cc'd) so you can arrange to begin sending over the files for us to upload on the bespoke website. **This really does take us some time to deal (it will be days) and as such, can I ask you to action this so we can make a start : thanks**

Regards,

Stacey
