HC 30/10/2014
(MS)

[redacted]

22nd October 2014

Dear Sir,

I have recently visited our local library to look at Wealden proposed planning for the future. I am very concerned about the congestion in the town caused by traffic entering the town.

First of all the south road , there queues right back to the roundabout at Ersham Road round by the garage.

Secondly the queues to the north go up to the beginning of Battle Road .

Car parks are quite full at all times and cars are queueing to find a place.

If you try to get a doctors appointment, one has to wait some time before getting booked in owing to the increased population.

Parking outside of Hawks Road School causes a lot of problems, there also should not be parking on the corner of Hawks Road and Harebeating Drive, this area should have yellow lines.

Parking into Hawks Town Gardens forces other vehicles to the wrong side of the road, were there to be an emergency ie with fire engines or ambulances, there is no clear room.

These are a few of the problems, I know people need housing, but I feel that integrity is needed in considering any further development.
When speaking to people in Hailsham they are of the same opinion and feel there is nothing they can do about it or even have a voice which will be heard, it is all very frustrating.
I hope you will consider my remarks.

Yours faithfully
