Addendum to the Sustainable Settlement Study

1. Introduction

1.1 The purpose of the Sustainable Settlement Study (SSS) March 2024 was to understand the sustainability of the district's settlements at that time and identify those which would be the most appropriate to deliver sustainable growth.

1.2 The SSS (2024) was based on the level of services and facilities offered by a settlement at that point in time, together with its location in relation to higher order settlements and the provision of sustainable access to those settlements, for example, by public transport. It did not make any judgements on a settlement's future sustainability.

1.3 The settlement hierarchy as set out in the SSS (2024) is in Table 1.

Table 1 Wealden Settlement Hierarchy (2024)

Settlement category	Settlement
Type 1 settlements (Town)	Crowborough, Uckfield, Hailsham and Heathfield.
Type 2 settlements (Urban settlement)	Polegate, Willingdon, Stone Cross, Westham, Pevensey, Pevensey Bay.
Type 3 settlements (Primary village)	Forest Row, Horam, Mayfield, Wadhurst.
Type 4 settlements (Secondary village)	Bells Yew Green, Berwick Station, Blackboys, Buxted, Cross in Hand, East Hoathly, Eridge, Five Ash Down, Framfield, Frant, Groombridge, Hartfield, Herstmonceux, Isfield, Lower Horsebridge, Maresfield, Ninfield, Rotherfield.
Type 5 settlements (Neighbourhood settlement)	Broad Oak, Cade Street, Chelwood Gate, Coleman's Hatch, Danehill, Five Ashes, Hadlow Down, Halland, Hellingly, High Hurstwood, Laughton, Lower Dicker, Little Horsted, Mark Cross, Maynards Green, Nutley Punnetts Town, Rushlake Green, Selmeston, Upper Dicker, Upper Hartfield, Windmill Hill, Withyham.
Type 6 settlements (Residential settlement)	Arlington, Balls Green, Best Beech Hill, Blackham, Bodle Street Green, Boreham Street, Chalvington & Ripe, Chiddingly, Cowbeech, Cousley Wood, Fairwarp, Fletching, Hankham, Hooe, Magham Down, Muddles Green, Old

Settlement category	Settlement

2. Purpose of this addendum

2.1 Since the publication of the SSS (2024) the planning environment has changed. From a national perspective, a new National Planning Policy Framework (NPPF) was published in December 2024 which altered the Standard Method for calculating housing need. This resulted in the housing need figure in Wealden rising from 1,200 dwellings per annum to 1,457 dwellings per annum at that time. This change, alongside the new NPPF policies resulted in the Council drafting an amended draft 'Focussed' Wealden Local Plan in February 2026. On a local level, representations from consultation on that Plan and the preceding draft Wealden Local Plan (2024) have been considered. As a result of these issues, the Council has reconsidered the spatial strategy for development within the district, along with potential sites for allocation and development as part of the production of the emerging Wealden Local Plan.

2.2 This has necessitated a review of the SSS (2024) to identify if there have been any changes in a settlements level of services and sustainable transport access that would deem it to be in a different category of the settlement hierarchy.

Review and Update

2.3 This Addendum follows the same methodology for assessing the sustainability of the district's settlements as in the previous SSS and so will not be repeated here. The methodology can be read in Chapter 5 of the Sustainable Settlement Study (2024)[1].

2.4 In summary, the approach used desk-based analysis of the settlements, along with local knowledge, site visits and consultation with Town and Parish Councils through questionnaires / lists of services and facilities, to understand which facilities and services were present within each settlement.

Approach - Quantitative

[1] See Chapter 5 of the Sustainable Settlement Study (2024), specifically paragraphs 5.18 onwards for the scoring mechanism and qualitative assessment.

2.5 The first stage of the review involved sending the Town and Parish Councils the lists of services and facilities recorded previously for each settlement and asking them to update the lists i.e. to indicate where services / facilities had been lost or gained. This was undertaken between 16th April 2026 and 28th May 2026.

2.6 Of the 78 settlements we asked for updated information on, we received 66 responses from the Parish and Town Councils. For the remaining 12 settlements, the District Council undertook a review and updated the data.

2.7 The updated data was then re-scored, using the original methodology. The updated services and facilities for each settlement are set out in Appendix A. The scoring for each settlement under each of the methodology approaches is set out in Appendix B. The ranking of the settlements by each methodology approach is set out in Appendix C.

2.8 Table 2 lists the settlements in ranked order using the average score (2026) across all three methods, as in the original 2024 assessment. The settlements previous rank is shown in brackets and their average score from the SSS 2024 is also given for context.

2.9 The settlements in Table 2 are ranked by the overall average (2026) score, and their rank position is relatively consistent when looking at the average of each Method (see Appendix C).

2.10 As in the SSS (2024) it should be noted that Table 2 shows the average scores and does not indicate a settlements place in the settlement hierarchy. Whilst the presence of services and facilities are important, the consideration of sustainability goes further than this.

Qualitative

2.11 As in the previous SSS (2024), we again considered factors such as transport links, accessibility to larger centres, environmental constraints, the location of settlements and whether they support or share services with neighbouring settlements, in determining whether any changes were required to the settlement hierarchy. We also we considered a settlements accessibility to education and employment.

2.12 We reviewed the bus timetables for all of the settlements, including those we did not receive a response from the Parish and Town Councils on, to ensure we had the most up to date information on public transport. This forms a key part of assessing the sustainability of the settlements and their place within the settlement hierarchy. This was in line with the previous approach to the SSS (2024).

2.13 As part of the qualitative assessment, we considered the fact that even where a settlement had limited services and facilities itself, it may have very good sustainable transport links with another settlement that does provide a good range of services and facilities. This therefore provides a justification to consider that settlement to be more sustainable. Ultimately, the sustainability of the larger settlement provides a supporting role for settlements that surround it.

2.14 In terms of education, we considered whether a settlement had either a nursery/pre-school, a primary school or secondary school (or a combination of the three) and if not, we considered whether residents can easily access such provision in a nearby settlement by sustainable transport modes.

2.15 For services and facilities, we considered the number, range and type of services and facilities provided within each settlement because two settlements could have a total of five services, but if one has five shops and the other has five recreational spaces, there is a notable difference in relation to residents being able to satisfy their daily needs and the overall sustainability of a settlement.

2.16 When looking at the accessibility of settlements, we considered whether they had a train station, or reasonable access to a train station via sustainable transport modes. We also considered bus frequency and journey times to higher order settlements, both within and outside of the district.

2.17 This was the same method of qualitative analysis as was followed in the SSS (2024) to ensure consistency of approach.

3. Analysis of results

3.1 As can be seen from Table 2, many of the settlements have not changed their rank position following the re-scoring exercise and therefore, combined with the qualitative assessment, have not changed their categorisation within the settlement hierarchy.

3.2 Where rankings have changed these are primarily within a couple of positions (+ or -) and do not change the overall conclusions of the settlements positions within the hierarchy when taking everything together as a whole (quantitative and qualitative data). This is often the case in lower ranking settlements, which remain a Type 5 or 6 settlement respectively, regardless of overall change to ranking position.

3.3 The average scores have also not dramatically changed for the majority of the settlements. There are a few notable exceptions, explained further below.

<u>Pevensey</u>

3.4 One notable change is that of Pevensey, which has gone up the rankings to 13th from the review, having been ranked 22nd in 2024. Pevensey's average score has also increased from 38 to 50.

3.5 This is primarily explained by the presence of more of the key services than previously recorded, namely Pevensey and Westham Primary School and the train stations at Pevensey and Westham and Pevensey Bay. These were not recorded within the scoring last time around and so have been corrected for this review.

3.6 In this review it was also brought to the council's attention through the consultation with the town and parish council's that there is a post office in Westham High Street available for use by residents, so that also added to the average score.

3.7 This does not alter Pevensey's position within the hierarchy, and it remains a Type 2 Settlement owing to its relatively close proximity to Eastbourne.

Horam

3.8 Horam is another settlement that has changed in its ranking, going down from 10th in 2024 to 16th through the review. Its average score reduced from 58 to 46.

3.9 Since the last assessment for the settlement hierarchy, Horam has lost the Community Pre-School (a Key Service) and whilst the settlement does still have a post office service, this is now only for 1 hour a week on a Monday and operates from the Horam Centre in the High Street. Therefore, it has not been scored. The May Garland Pub has also closed.

3.10 However, despite the loss of some services, Horam remains a Type 3 settlement within the hierarchy.

3.11 This is due to the fact that Horam still has many of the services and facilities considered in this study to contribute towards a settlement's sustainability. It retains the GP surgery and the Co-Op supermarket on the High Street (which is open 7am – 10pm 7 days a week) both of which are Key Services for the purposes of the settlement hierarchy. Horam also has a dental practice; a pharmacy; the village hall and Horam Centre; the recreation ground and a skatepark (all of which are other important community services) and a selection of cafes and tea rooms including Mermaid Lounge, Lakeside Café, Cadence and the Horam Emporium (all of which are classed as other community services). The Horam Emporium encompasses a range of retail offerings as well as Wesson Café. Horam also has a vets and allotments.

3.12 In addition, Stagecoach Route 51 is Horam's main regular bus service, linking the village with Hailsham, Heathfield, Eastbourne and Tunbridge Wells. The Number 51 is a reasonably frequent rural bus service, with roughly one bus an hour through most of the day. First buses towards Heathfield/Tunbridge Wells are around 6:00am and evening services continue until around 7:30pm to 8:00pm through Horam, with later journeys on parts of the route. This service is considered a 'other important community service' for the purposes of the settlement hierarchy.

Nutley

3.13 Nutley improves its ranking from 23rd to 21st following the review and re-scoring and increases it average score to 42 from 38. The increase in average score is as a result of the settlement gaining a very frequent bus service (one of the Key Services) from its previously limited bus service. This service runs 7 days

a week with a maximum frequency of 26 services a day and a journey time to Uckfield of 14 mins.

3.14 Given the fact Nutley has a primary school, convenience store open 7 days a week open 6am to 9/10pm, a now very frequent bus service and a pre-school (4 of the 5 Key Services) as well as the other services and facilities, it meets the criteria for moving up in the settlement hierarchy.

3.15 Therefore, Nutley moves to a Type 4 settlement within the settlement hierarchy.

Laughton

3.16 Laughton has moved up in the rankings following the review and re-scoring, from 32nd in 2024 to 24th in 2026. Its average score has also improved from 28 in 2024 to 38 in 2026.

3.17 Part of this increase is as a result of the convenience store having been missed in the previous assessment, but it is present and has had an increase in its opening hours until 8pm Mon – Sat and is also now open on a Sunday 9am to 4pm.

3.18 Laughton has also gained a very frequent bus service, improved from a limited bus service previously. Buses run 7 days a week with a maximum frequency of 42 services per day and a travel time of 23 mins to Lewes. It therefore now has 3 of the 5 Key Services including a primary school, convenience store and very frequent bus service.

3.19 The settlement also retains the other services and facilities it had previously and has gained a farm shop which is opening soon.

3.20 Given the fact Laughton now has a primary school, convenience store open 7 days a week and a very frequent bus service, as well as the other services and facilities, it meets the criteria for moving up in the settlement hierarchy.

3.21 Therefore, Laughton moves to a Type 4 settlement within the settlement hierarchy.

Broad Oak

3.22 Broad Oak has improved significantly in the rankings, going from 40th in 2024 to 30th in 2026. The settlements average score has also improved from 24 to 29.

3.23 The improvement in average score is as a result of Broad Oak gaining a frequent bus service from the previous limited bus service. The service now runs 6 days a week (Mon – Sat) with a maximum frequency of 10 services a day and a journey time of 15 mins to Heathfield. The settlement retains the services and facilities it had previously, including a farm shop at Tottingworth Farm, which is open Tues – Sat 9am to 5pm and Sun 9.30am – 4pm.

3.24 It is also noted that Broad Oak shares commonalities with Cross in Hand in terms of the types and levels of services it has, with the main difference being that Cross in Hand has a very frequent bus service. However, they both have the same average score and are ranked 29th and 30th respectively.

3.25 Given that Broad Oak now has a convenience store open 7 days a week from 7am – 8pm Mon – Fri, 7am – 7.30pm on Saturday and 8am – 1pm on a Sunday, the additional farm shop and a frequent bus service (3 of the 5 Key Services), as well as the other services and facilities, it meets the criteria for moving up in the settlement hierarchy.

3.26 Therefore, Broad Oak moves to a Type 4 settlement within the settlement hierarchy.

4.0 Conclusion

4.1 From the review, the majority of settlements have not changed significantly in their raking or average score and remain within the settlement categories they had previously.

4.2 As outlined above, Nutley, Laughton and Broad Oak now all meet the criteria for moving from the Type 5 settlement category to the Type 4 settlement category.

4.3 The revised Wealden Settlement Hierarchy is set out below, with those settlements that have changed category underlined.

Settlement category	Settlement
Type 1 settlements (Town)	Crowborough, Uckfield, Hailsham and Heathfield.
Type 2 settlements (Urban settlement)	Polegate, Willingdon, Stone Cross, Westham, Pevensey, Pevensey Bay.
