Dear Sir or Madam,

Re Wealden Housing - Have your say.!!

Following the Feedback news that has dropped through my letter box. I do feel obligated to "have my say."
NO I DO NOT AGREE TO RECOMMENDATION FOR HOUSING IN HINDSLAND / MORNING HILL FARM. Whether it be around 700 houses or indeed a maximum of 700 houses.

WHAT HAPPENED TO **NO NEW HOUSES ON HINDSLAND AND MORNING HILL FARM.** Not so long ago everyone was in agreement NOT to build on HINDSLAND / MORNING HILL FARM. We didn't have the infra structure for additional housing. The roads are already congested, we don't have sufficient schools - medical facilities and the current sewer size is only now sustaining A NO FLOOD ZONE in this area.

I DO NOT SEE THAT THIS SITUATION HAS CHANGED.!! So one has to wonder how many palms have been greased and how many backhanders or promise of backhanders have been received to make this U-TURN!!

It is certainly strange that the meetings to vote on building on this site were advised AFTER they had taken place. I had asked if certain meeting were in regard to building at HINDSLAND/ MORNING HILL FARM and were told NO these meetings would be held later. Only to find that "later" it had all been agreed that housing was being "dumped on this site".

Yes it is disgraceful that no authority seems to want to know anything counter to this decision. Any complaints have been given little or no chance of being given time to be made - let alone sent or received. And complaints made have been delayed and sidetracked so that any impact they may have had has been diluted.

I think that it is an absolute disgrace that it has been decided to dump your new build houses on HINDSLAND / MORNING HILL FARM. And to the people who have made this possible - SHAME ON YOU.

Whilst I appreciate new housing is a government requirement. If the roads, schools and medical facilities and dental facilities wont sustain it. DON'T BUILD IT HERE.
