Dear Councillors

I am writing to express our concern over the proposed development of 1000 houses, school, units and offices southwest of Uckfield.
Whilst we welcome new homes for people in need, and do not object to development in Uckfield per se, the scale of the build appears excessive and unsustainable in terms of the demand on the town's services, exacerbation of existing traffic problems, and the environmental impact on the immediate and surrounding area. We ask you to please register our objection and please do anything you can to negotiate a better, more balanced solution that best suits the needs of the new and existing population.

Yours sincerely

Ms Karen Smith
Mr Michael Lucas
