Hello, something very suspicious is going on. It seems that there's a plan to completely ruin Uckfield & it's all been secretely slipping past us all. Now when things like this occur, it rings alarm bells and it always seems that a chosen few benefit financially to the detriment of everyone else! Everyone who has heard about it - and not from the Council, strangely enough - believes that it is illegal. And anyone with half a brain would realise that it's going to cause a lot of terrible unsolveable problems.
We can just guess at the extra number of cars in Uckfield. Nobody involved in this nasty scheme cares a jot about our town. If they did, they'd think of a way to ease the burden, and the obvious one is to re-open the Uckfield/Lewes/Brighton line so that commuters can catch a train to work instead of sitting in a traffic jam.
The main power we have is elections. And guess who will never be elected again if they don't do something decent for the people who put them there?

Regards,
Mr & Mrs L Funnell.
