Dear Mr Carvey,

I refer to the leaflet which we received on Friday regarding the development detailed above.

I must say, we were very surprised to read the details described therein, as we have heard very little about the core strategy plan itself and did not receive information on the proposal or indeed a public meeting on 11th February this year!

I can assure you we would have attended such an important meeting and can only assume that the information is being distributed very minimally to enable this horrific plan to be voted through un-opposed if so little is known about it by so few!

For ALL of the details as listed in the leaflet, we 100% oppose the very thought of yet another development which would turn Ridgewood and Uckfield into a small scale Milton Keynes!! Residents do not want it, do not need it and the ruination of our community would only serve to line the pockets of the developers who would go home to their own beautiful homes surrounded by the very countryside we are seeing destroyed with every passing year!

Surely something has to be done to get more residents of Ridgewood and Uckfield aware of this proposal? If we were unaware of it I would suggest many other people are too. It is preposterous that we will all have our lives blighted by this self- serving, money making scheme for the few who still have green fields surrounding the gates of their luxury homes after a hard day's demolition and estate building!

Have we learned nothing at all about the actions of a few selfish people increasing their wealth at the cost of the rest of us?

NO! NO! NO!

Karen J Barber
