This response relates to the p~~p~~roposed ~~Inspectors m~~modification	
MM 28 and MM 34	**WS 9**
(Please add numeric reference e.g. MM22 or Wealden District Council/ South Downs National Park Authority modification WS e.g. WS 23)	

Declaration:	I consider the proposed modification will assist the submitted Core Strategy to be found sound ☐ /unsound ☒ (*place a cross in the box to show which option you have chosen) for the following reasons:

Reasons Given:	WS9, with regard to development of south east Crowborough (SD10), states the Council's reliance upon the contingency site to the north of the A26 being brought forward in the event that highway issues in Western Road cannot be adequately addressed. MM28 and MM34, however, delete all notation and reference to this contingency site. The inspector further states in his letter that "there is evidence that there is a reasonable prospect that the traffic implications of the scale of development proposed in Crowborough, which were the main reason for the contingency site, can be addressed." No details of this 'evidence' is stated, although it has eluded all those seeking to identify a solution to the already serious and long-standing problems in Western Road. In the event that highway issues cannot be adequately addressed, will the contingency site be reinstated for consideration or will SD10 development be deleted from the CS as in the case of SD11 at Heathfield?
