Lyn Lulham

Dear Mr Carvey
I have just received a leaflet through my letter box regarding the proposed development at Ridgewood Farm.
This is the first time I have heard of this and I am absolutely appalled at the thought of another 1000 homes being built on that site. There is no way that the infrastructure at Uckfield will be able to cope with this and the increased traffic into and around the town will bring it to a standstill.
I purchased my home at Ridgewood when it was still a village fifteen years ago and it is almost unrecognisable now. Uckfield town does not have anything to offer any new builds except hairdressers and charity shops. The traffic around the Tesco store is always bad now and the store should never have been built on that site in the first place. It should be out of town as it has destroyed the high street as small businesses cannot compete against a giant like Tesco. Not everyone wants to shop there but we do not have much choice.
I would like to hear back from you to let me know what is happening on this site and why I wasn't notified of this. I fully back Ridings Action Group in asking that the consultation period and public meeting be re-opened.
I look forward to your reply.
Kind regards

Lyn Lulham
