Dear Mr Carvey

I am writing in response to your flyer recently hand delivered,

I wholly reinforce your concerns as to yet another development proposal in Ridgewood and for the reasons that you state am against this plan. Neither Uckfield nor Ridgewood has the necessary infrastructure to support such a massive development and the Government Land Inspector needs to be made aware of this and abort the plan.

The local roads are unable to cope at present with the massive increase in traffic flow, additionally parking is almost impossible in both the town and local hospital making it very difficult when a visit to the GP is necessary.

If necessary I will put my views in writing for submittal to the relevant bodies.

Thank You

Lynne Paxton
