YOUR COMMENTS ON THE CASE

As a resident of Maresfield I would like to ask on behalf of myself and my wife and two young children that you block development on Downlands Farm and save this precious green space and wildlife habitat for community now and in the future.

It is a beautiful area and specifically a beautiful piece of countryside that is important in allowing Sussex to maintain itself as a rural county. If we continue to pave over such countryside we will ruin this area and spoil what is so treasured about it.

Furthermore, increasing the population in this area is further straining an already stressed traffic system as well as struggling school system. There is development that is sensible and interfaces well with the existing community but it is not this project.

If we treasure our countryside and its biodiversity we must protect it otherwise we will lose it forever. And protecting means taking action against proposals such as the one to develop Downlands Farm.

Please do the right thing for the existing community and generations to come.
