YOUR COMMENTS ON THE CASE

I write again to lodge my objection to this proposed development. The reasons for which are already well known to Wealden Council and have been well aired in large numbers of objection letters from the community, therefore I do not need to repeat all the points previously listed. I note the basis for the applicants appeal is based on a procedural error from Wealden Council. How this situation has come to pass beggars belief. I do not want to throw accusations of corruption within Wealden Council - but this then only leaves total incompetence as the other explanation. As head of Planning and Environmental Services, Stacy Robbins should re-consider his position and step down immediately if he has allowed such a monumental procedural failure to occur on his watch.

I implore Wealden Council to put an end to repeated planning applications for this site and to put into motion a mechanism to protect Downlands Farm from any future speculative housing development applications. Not only does it cause distress and uncertainty, it also creates huge unecessary cost to us local council tax payers. Stacy please do your job and listen to the people of Uckfield and ensure this despised application does not succeed.
