YOUR COMMENTS ON THE CASE

There are already too few doctors, dentist, school places and supermarkets for the existing population. Access near Rocks Road would be treacherous due to the speed of traffic and poor sight lines, and the volume of traffic in town is already very high. Often walking over the fields in winter they are really boggy, even on the slopes because they are doing an immensely valuable job of collecting water and avoiding flooding, where is this water going to go if built and paved over? The biodiversity in the area should be enough grounds to refuse the application.
