YOUR COMMENTS ON THE CASE

Please reconsider this. The persistent erosion of our beautiful landscape and nature is so depressing. There has been a huge amount of house building in this small town, with consequent disappearance of our lovely countryside. Amenities are already at breaking point before current plans are completed. Doctors are a special concern - it takes a minimum of 6 years to train a doctor and the uptake in the primary care service is small. Cars, water, sewage, electricity?? It's no good just bulldozing on. We really MUST consider these issues and the effect the plans have, not just on the environment, but also the well being of the town's residents.
