YOUR COMMENTS ON THE CASE

I'm objecting strongly to this application on environmental and animal protection grounds. The site is home to hundreds of species of birds, moths and butterflies, endangered dormice,bats and reptiles such as grass snakes and lizards. Shortbridge Stream is part of the migration route for critically endangered European eels. It is utterly outrageous to destroy this area and add to the amount of traffic around Maresfield and Uckfield. We need to protect our wildlife and woodlands and there are already plans for thousands of houses at Ridgewood so this is totally unnecessary as well as destructive.
