YOUR COMMENTS ON THE CASE

The infrastructure of this area cannot support the residents of our town already. Doctors, Dentists, schools etc. cannot fulfil the demand which is at breaking point. Wildlife struggle with their natural habitats and flora all being destroyed with the already over subscribed developments in progress. The development will encourage more vehicles to clog and pollute as well as discourage healthy living as walking to services as the development would be too far for people to walk. Southern water are already concerned over the present population of Uckfields water usage, let alone this new development going ahead. There are not enough opportunities within this area for employment , which would mean more vehicles on our roads. This application should be rejected. Please also refer to my previous rejection letter.
