ABOUT YOUR COMMENTS

In what capacity do you wish to make representations on this case?

- ☐ Appellant
- ☐ Agent
- ☑ Interested Party / Person
- ☐ Land Owner
- ☐ Rule 6 (6)

What kind of representation are you making?

- ☐ Final Comments
- ☐ Proof of Evidence
- ☐ Statement
- ☐ Statement of Common Ground
- ☑ Interested Party/Person Correspondence
- ☐ Other

YOUR COMMENTS ON THE CASE

I wish to register my strong objection to this planning application on the following grounds and for the following reasons:
This is a rural area that already has a great deal of housing development and further erosion of the countryside will be detrimental to the environment.
At the current rate of development the rural area that people moved into in many cases to escape the urban sprawl will become that same urban area.
The answer to reducing carbon emissions is not to keep building houses and destroy the trees and green areas that protect the environment from excessive carbon. I have lived in this area for 11 years and frequently utilise the Downlands Farm area for walking, we are told that green spaces are good for our health and mental well being but if they keep on being taken away at the current rate it will be to the detriment of all. Additional traffic will be created by this proposed development on narrow country lanes, further danger to the environment and personal danger to residents. This area has a great deal of wildlife which require green corridors to be maintained to ensure their survival, this delicate balance that currently protects several endangered species must not be jeopardised.
