1. Introduction

During April and May 2022 consultation on the Horam Neighbourhood Plan was undertaken. The purpose of this was to ask whether the set of draft objectives prepared based on the findings of an initial survey from 2020 fairly reflected the community's aspirations for Horam or, if not, whether there were other challenges and issues to be addressed.

This consultation took the form of a questionnaire that sought to capture feedback electronically (via the Parish Council website) as well as by hand. The survey was available in hard copy at the Parish Council offices and various shops within the village.

It was supported by a leaflet posted to all households in the Parish as well as a set of summary information posters which were displayed online and in the Parish Council offices. Copies of the material are included in the appendix to this report.

A separate poster was also prepared by the Parish Council to encourage residents to respond to the survey. A copy of this is shown in Figure 1. Posts were also regularly added to the Horam Village Facebook page to raise awareness of the Plan. A selection of these are shown in Figure 2. Furthermore, links to the survey were displayed front and centre of the Parish Council home page on the internet. A screenshot of the homepage at the time of the consultation is shown in Figure 3.

The information was also available to view at the Horam Parish Meeting in April 2022 and where Steering Group members were in attendance to answer questions. In addition to this, a children's poster competition was organised in partnership with the support of the Primary School, the purpose being to capture the thoughts and ideas of younger members of the community, but also to raise awareness of and interest in the Plan in their parents and or guardians.

A total of 299 responses to the questionnaire were received, equating to a response from more than ten percent of the population of the parish, or around a quarter of all households. The vast majority of responses were received from residents of the parish (95%), with the remainder including local businesses / organisations, people visiting the area or living nearby, and those who work in the area. The breakdown of respondent is presented in Figure 4.

In terms of the age of respondents, there was limited response from people aged 25 or under (just nineteen responses in total), meanwhile a total of 16% of responses came from the 26 – 35 and 35 – 45 categories. For the remaining categories (46-55, 56-65, 65+), the percentage split increased incrementally from 17%, to 25%, to 35% respectively. Other than for the under 25 age group, the level of response is fairly reflective of the age structure of the population of the Parish as a whole, with the over 65 age group comprising the largest demographic in the Parish. This breakdown is presented in Figure 5.

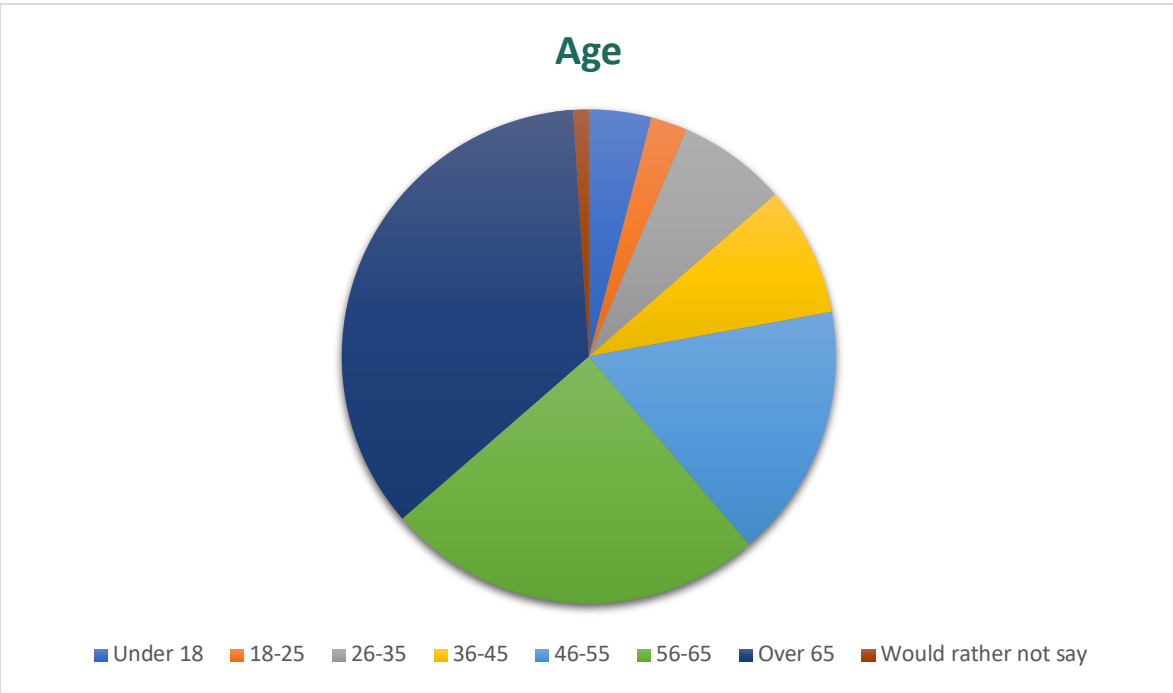

Figure 5. Age breakdown of respondents to the survey

2. Feedback on the Objectives

2.1 Overview

The survey presented respondents with a series of draft objectives which had been prepared following feedback from an initial survey undertaken in 2020. Nine objectives were presented, grouped around five main themes or topic areas, being:

- Objective set 1: Residential Development
- Objective set 2: Countryside and Environment
- Objective set 3: Local Economy
- Objective set 4: Transport and Movement
- Objective set 5: Community Cohesion

For each theme, respondents were asked whether they felt the objective(s) were heading in the right direction, answering either yes, no, or not sure. For each theme, respondents were also asked whether they had any comments on the objective(s), allowing for wider discussion.

A summary of the responses to all objectives is displayed in Figure 3, followed by a further examination of each set of objectives below that, including an analysis of the wider comments.

As indicated in Figure 6, high levels of support were expressed for each of the objectives, with each receiving at least 70% 'yes' responses. This is reflective of the process undertaken through the initial survey in 2020 that was undertaken to inform and establish the objectives. Notably, Local Economy received a significant amount of 'not sure' responses (18%). This likely related to the wording of the objective and is discussed in more detail in the relevant section below

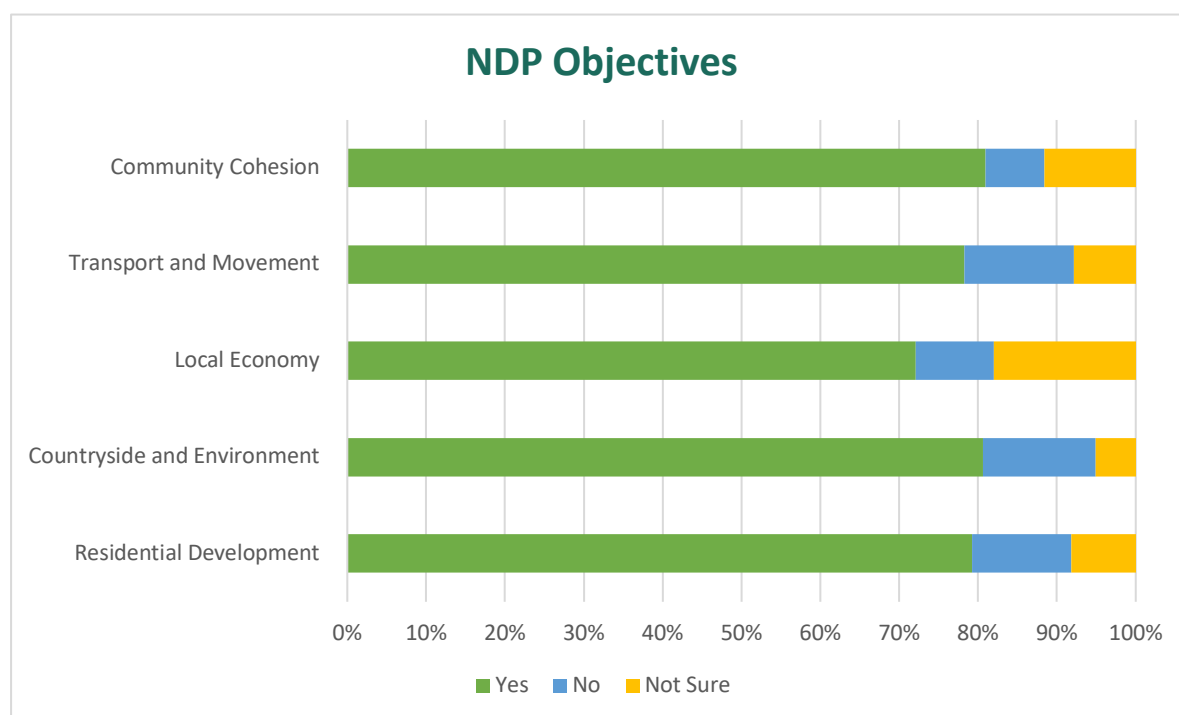

Figure 6. Graph displaying responses to the objectives included under the 5 key themes

2.2 Objective set 1: Residential Development

The objectives listed under this theme were:

- *To ensure that future development is consistent with protecting and maintaining the largely rural character of the Parish.*
- *To promote a balance of social mix and age distributions within the Parish.*
- *To safeguard the parish character and heritage with particular regard to design.*
- *To avoid housing development in areas prone to flooding and unsustainable locations.*

This set of objectives received strong levels of support, with just under 80% of responses being 'yes', only 13% 'no', and 8% 'not sure' (see Figure 7).

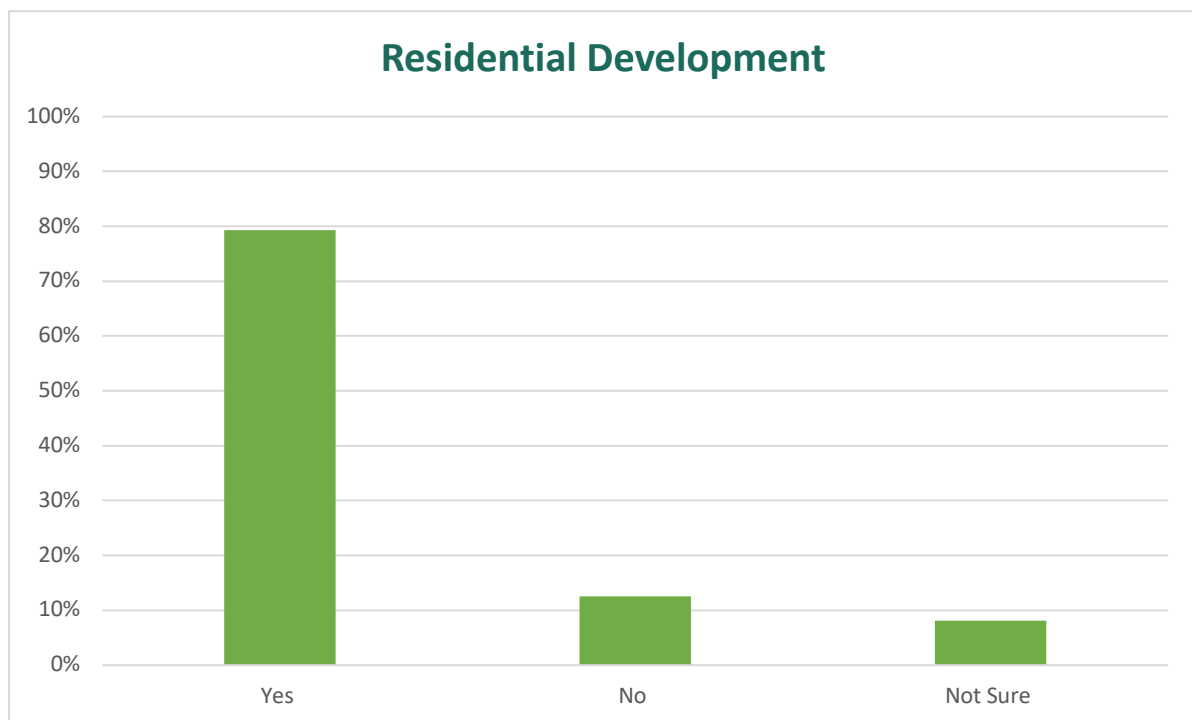

Figure 7. Chart displaying the distribution of responses to Residential Development objectives

The main comments made in respect of this set of objectives are summarised as:

- General opposition to the sheer scale of potential future housing development that could come forward in the area.
- Major concern over the lack of infrastructure in place to cope with any further residential development, particularly regarding school places and GP surgeries.
- New development should respect the local character of the area; design should be consistent with the vernacular of Horam and the wider region.
- Concerns over the affordability and variety of new housing, particularly over whether local people looking to buy their first home will be able to afford to stay in the area.
- All new development should avoid flood risk
- Ensure that all new development is in sustainable locations and supported by access to sufficient local infrastructure

2.3 Objective set 2: Countryside and Environment

The objectives listed under this theme were:

- *To protect and enhance the natural environment and tranquillity of the Parish.*
- *To conserve and enhance areas of natural habitat.*

This set of objectives received extremely strong support from respondents, with over 80% of responses being 'yes', 14% 'no', and 5% 'not sure' (Figure 8).

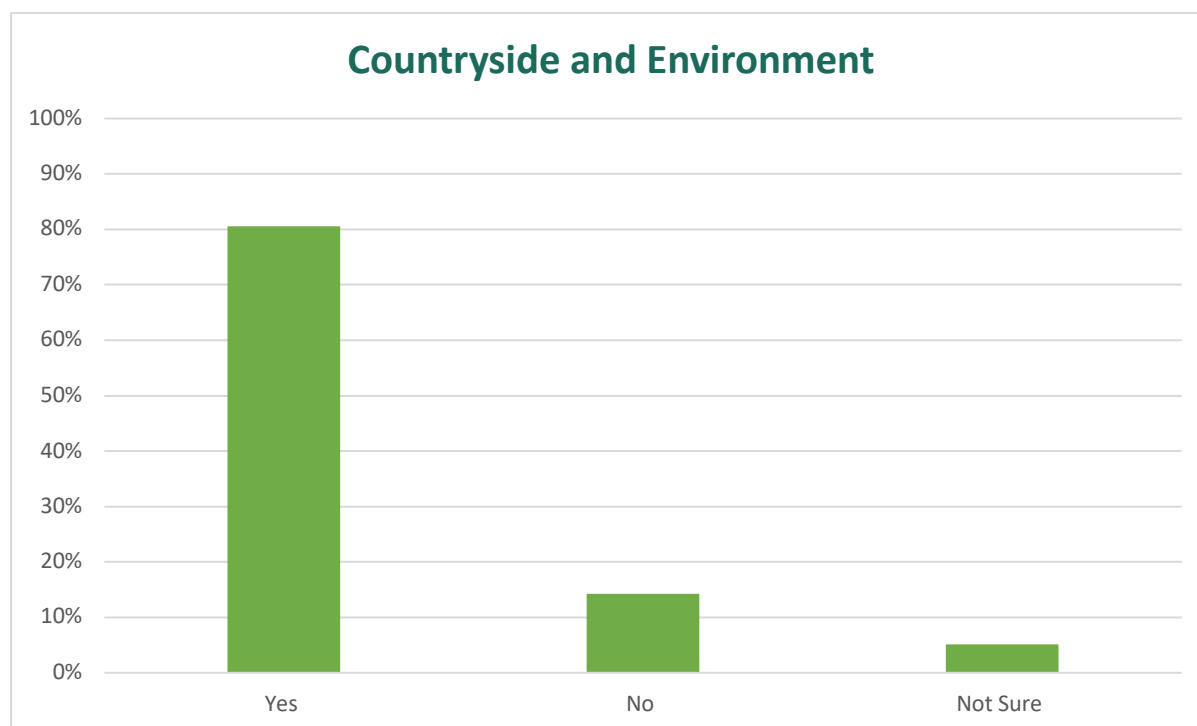

Figure 8. Chart displaying the distribution of responses to Countryside and Environment objectives

The main comments made in respect of this set of objectives are summarised as:

- Concern that residential development is eroding the beauty of Horam's countryside and natural environment, not only directly, but also indirectly through increased traffic in the area.
- Respondents highlighted certain areas within the Parish they felt needed protecting, including the Cuckoo Trail, the High Weald AONB, and areas of ancient woodland.
- Respondents also raised concern over the increase in light pollution in the area.
- There was support for the Plan to help address Climate Change.
- A common trend amongst respondents was that while they supported the objectives, they struggled to understand how they could be enforced in the face of major residential development throughout the Parish. The combination of design work to be undertaken, which will include consideration of landscape character, plus wider policies around biodiversity value, can help to ensure this objective is upheld.

2.4 Objective set 3: Local Economy

The objective listed under this theme was:

- *To encourage appropriate businesses within the Parish.*

This objective received strong levels support from respondents, with 72% of responses being 'yes', 10% 'no', and '18%' not sure (Figure 9).

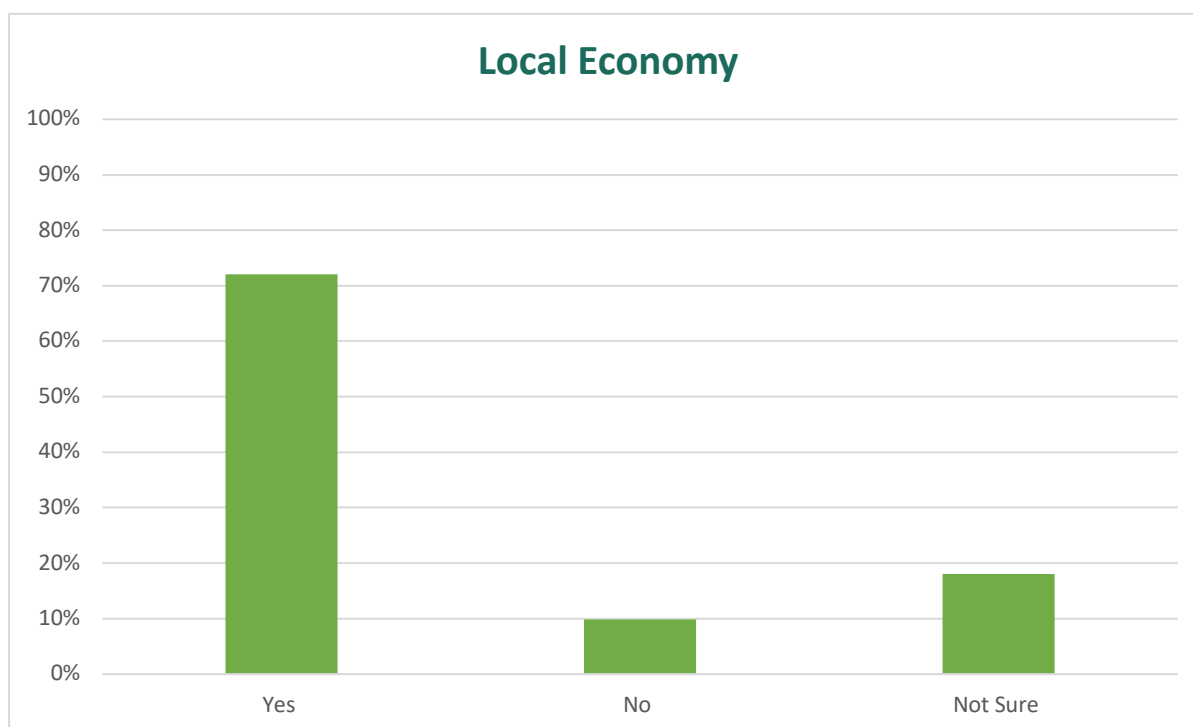

Figure 9. Chart displaying the distribution of responses to the Local Economy objective

The higher proportion of 'not sure' responses to this objective, particularly in comparison to the other objectives, is perhaps explained by a number of comments received which suggested that the term 'appropriate businesses' was too ambiguous and needs explaining further.

Wider comments made in respect of this objective are summarised as:

- Concern over the recent trend of local businesses closing down, with no sign of them being replaced with similar uses, or in some cases being converted to residential uses
- Support for small, local businesses.
- A number of respondents provided suggestions for new businesses they would like to see in Horam, including a bakery, post office, newsagents and fishmonger.
- New businesses (if relating to industry for example as opposed to local shops) would need to be located in sustainable locations in order to avoid traffic and pollution within the village, and tie into other objectives relating to the tranquillity of Horam

2.5 Objective set 4: Transport and Movement

The objective listed under this theme was:

- *To encourage cycling, walking and public transport services.*

This objective received strong support from respondents, with 78% of responses being 'yes', 14% 'no', and 8% 'not sure' (Figure 10).

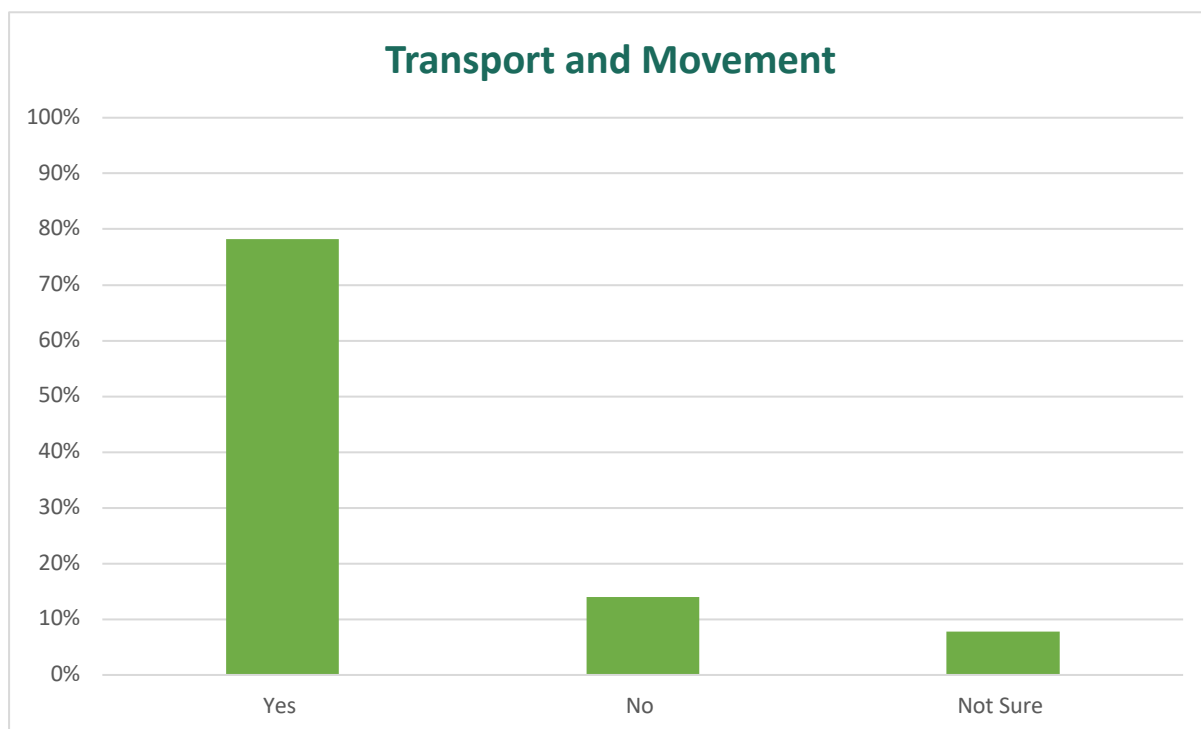

Figure 10. Chart displaying the distribution of responses to the Transport and Movement objective

The main comments made in respect of this objective are summarised as:

- Horam is served by poor public transport services that are inconsistent and do not run in the evenings, therefore not allowing residents to access local facilities without a private vehicle
- Concern that new residential developments are car-centric, and therefore have produced, and will continue to produce, increased levels of traffic throughout the Parish
- Some demand for the introduction of lower speed limits within the Parish
- New developments should ensure they link with the existing pedestrian and cycle network
- Cycling is not safe within the Parish unless on the Cuckoo Trail: infrastructure improvements need to be made before cycling becomes a realistic transport option for most residents

2.6 Objective set 5: Community Cohesion

The objective listed under this theme was:

- *To maintain and foster Horam's community spirit.*

This objective received an overwhelmingly positive reception from respondents, with over 80% of responses being 'yes', just 8% being 'no', and 12% 'not sure' (Figure 11).

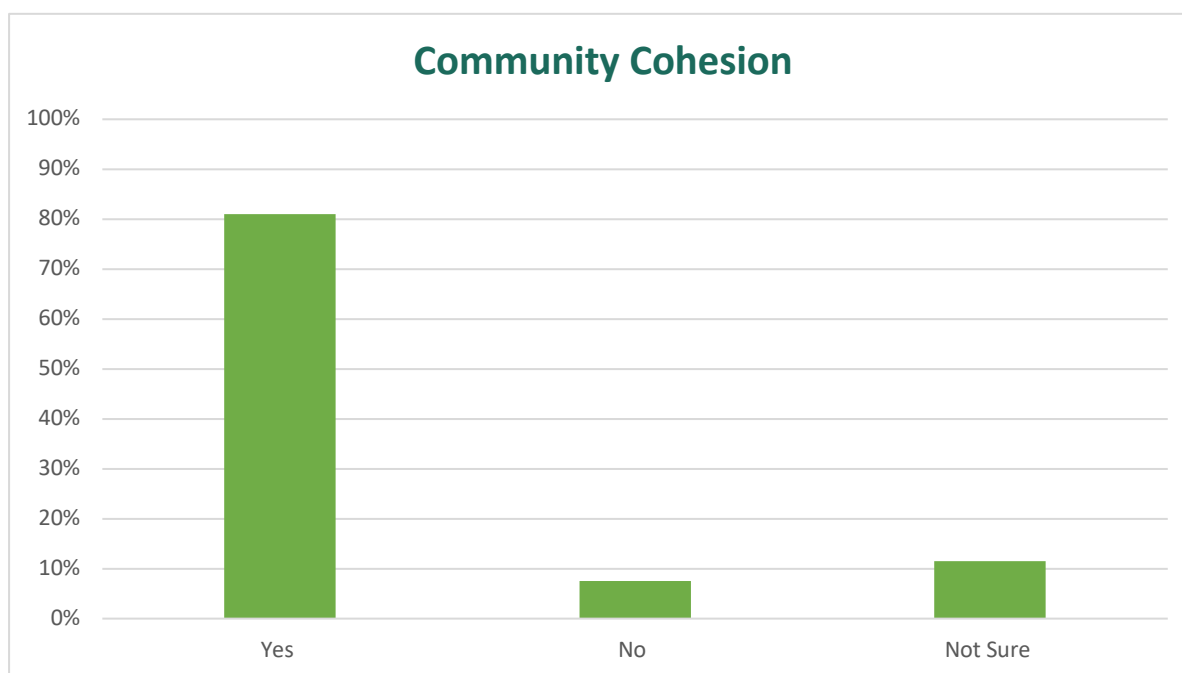

Figure 11. Chart displaying the distribution of responses to the Community Cohesion objective

The main comments made in respect of this objective are summarised as:

- Generally, there was agreement that Horam has a strong community spirit, and that efforts should be made to maintain this.
- Strong support for local community events that help bring residents together.
- There was some concern as to whether new residents would be able to, or want to integrate with the existing community, and that this may result in an 'us vs them' culture within the Parish.

2.7 Wider comments

Respondents were also provided with the opportunity to submit any other ideas, suggestions or concerns for consideration in the Plan.

The main comments made in response to this question are summarised as:

- Infrastructure: As far as possible, sufficient infrastructure should be put in place to help cope with the increased pressure that comes with new residential development. The most common concerns in respect of infrastructure provision related to transport, school places, and doctors' surgeries.
- Housing: Efforts should be made to ensure that new housing provision includes a variety of property types, and that they are accessible for local people on lower incomes seeking to get on the property ladder.
- Local character: New residential development should contribute to and positively respond to the local character and vernacular of Horam.
- Cuckoo Trail: The Cuckoo Trail should be protected and enhanced, with new and improved connections being provided to it.

3. Children's poster competition

Alongside the survey a children's poster competition was run in conjunction with the primary school. Entries were received across three age groups: (1) Reception and Years 1 – 2; (2) Years 3 – 4; and (3) Years 5 – 6.

The entries were noticeable for the emphasis on nature and the environment, encouraging people to recycle and make use of renewable energy, whilst also caring for wildlife, with one of the entries including the following statement:

"Horam Parish Council should have as many bikes and scooters as they want... they can let the nature be part... they could recycle more things... all I need is for you to be you"

Entries also had a focus on important local facilities, identifying the types of uses and services required in an area such as Horam, including local shops, schools and play areas.

A selection of entries are displayed on the following pages (Figures 12 – 14):

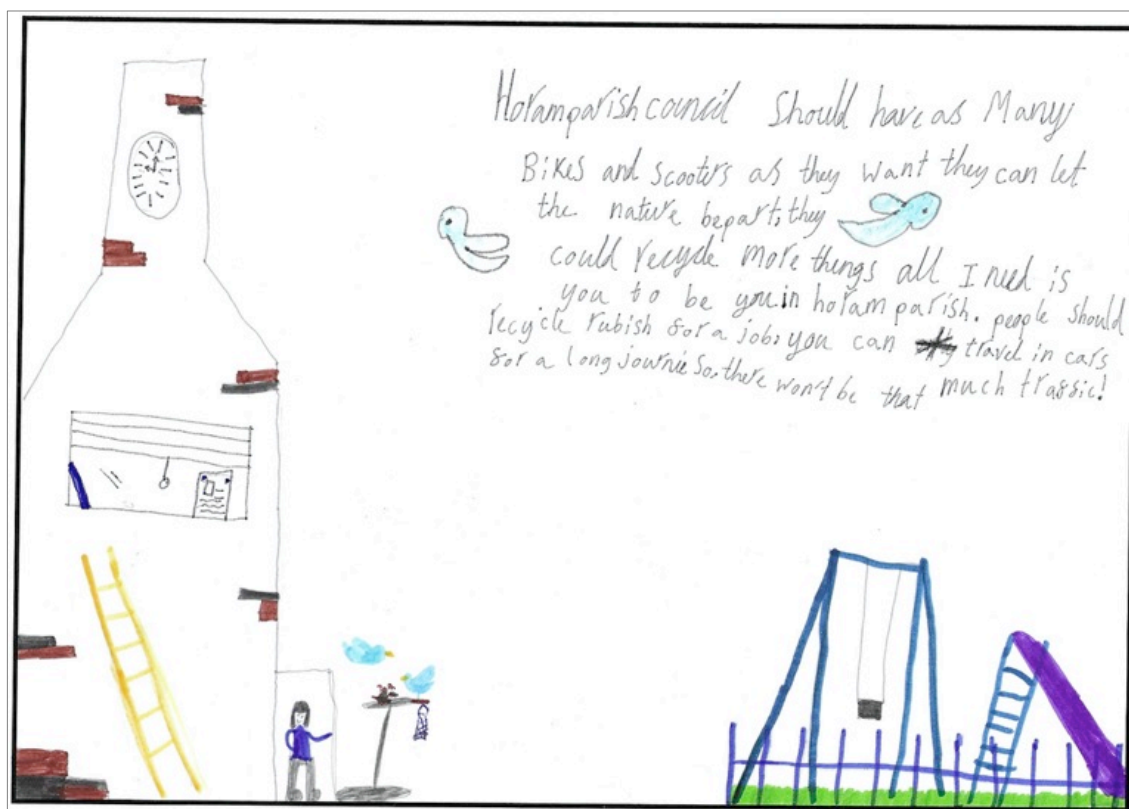

Figure 12: Entry from pupil in Reception, Year 1 – 2 age group

Figure 15: Entry from pupil in year 3 – 4 age group

4. Summary

There was a positive response to the proposed objectives, with at least 70% of responses to all objectives agreeing that they were heading in the right direction:

- **Residential Development:** With over 79% 'yes' responses, these objectives received overwhelmingly positive support. There was opposition to the scale of residential development that could come forward within Horam. Several respondents raised concern over the ability of the Horam's existing infrastructure to cope with the increased pressure that comes with an increased population, while other respondents were worried that new residential development would not respect or match the existing character of the area. Issues regarding flooding and affordability were also raised.
- **Countryside and Environment:** With over 80% 'yes' responses, these objectives were clearly strongly supported by respondents. A number of comments made by respondents highlighted the concern over the feasibility of the objectives in the face of new residential development. Other comments made mentioned the need for the protection of the AONB, the Cuckoo Trail, areas of ancient woodland and Horam's dark night skies.
- **Local Economy:** While this objective was still strongly supported, with over 70% yes responses, it did receive a higher amount of 'not sure' responses (18%) than the other objectives. Based on the comments received, it was clear that this level of uncertainty among the responses was due to the somewhat ambiguous nature of the objective. There was support for the introduction and support of small local businesses, but concern over the recent trend of closures in the village centre. Other comments insisted that new businesses should only be in sustainable locations.
- **Transport and Movement:** This objective received 78% 'yes' responses, indicating strong support. Comments made highlighted the poor public transport system that currently serves Horam, as well as the concern that new residential development has been too car-centric. Other respondents suggested that the Parish was not a safe place to get around by bike, and that significant improvements to cycling infrastructure needed to be made before this was a realistic option for most residents. There was also some support for the introduction of lower speed limits throughout the Parish.
- **Community Cohesion:** This objective received the strongest support from respondents, with 81% 'yes' responses. There was general agreement that Horam had a strong community spirit, and that the local community events help to maintain this. However, some commented that the rapid increase in new residential development was at risk of creating

an 'us vs them' culture, and steps should be made to integrate all residents into the community.

Comments made in respect of the objectives outlined above were also reflected in the wider comments received in terms of other ideas and suggestions, highlighting the importance attached to the provision of essential infrastructure, a mix of housing to meet local needs, achieving quality and design in new development, supporting and enhancing the Cuckoo Trail and connections to this. The importance attached to actions that help address climate change were also highlighted in the children's poster competition, as was the importance of services and facilities to support everyday needs.

It has been noted that a number of respondents expressed concern about the scale of residential development that could come forward in Horam. While these are valid, it is important to note that many of these responses appear conflated with the Local Plan. Indeed, it is the upcoming Wealden Local Plan that is responsible for deciding the scale and direction of future growth, not the Neighbourhood Plan.

Revised NDP Objectives

Based on the feedback from this round of consultation, it is proposed that the set of Objectives are amended slightly to be:

Residential Development

1. To ensure that future development is consistent with protecting and maintaining the largely rural character of the Parish
2. To promote a balance of social mix and age distributions within the Parish
3. To safeguard the Parish character and heritage with particular regard to design
4. REVISED OBJECTIVE: To avoid flood-risk caused by new developments
5. REVISED OBJECTIVE: To ensure new developments are in sustainable locations & supported by access to sufficient local infrastructure

Countryside and Environment

6. To protect and enhance the natural environment and tranquillity of the Parish
7. To conserve and enhance areas of natural habitat
8. NEW OBJECTIVE: To help address climate change

Local Economy

9. REVISED OBJECTIVE: To encourage businesses within the Parish that help to meet local needs & are compatible with the character and amenities of the Parish

Transport and Movement

10. To encourage cycling, walking and public transport services

Community Cohesion

11. To maintain and foster Horam's community spirit

HORAM NEIGHBOURHOOD PLAN CONSULTATION

What should Horam Parish be like in ten to fifteen years' time?

The Parish Council is preparing a Neighbourhood Plan. This is an exciting opportunity to influence the future of Horam Parish.

It will establish policies setting out how we, the community, wish to see the Parish change. It can also identify how and where improvements should be made, such as to community facilities and green spaces.

It is a Plan for the community, by the community.
It will be used to inform and help determine future planning applications in the Parish.

Please tell us what you think.

HORAM

PLAN OBJECTIVES

We undertook a survey in 2020 and have used your ideas and feedback to create a series of objectives for the Plan. These will form the basis of the Plan and policies within it. Do you think they are heading in the right direction? Please let us know your thoughts.

RESIDENTIAL DEVELOPMENT

1. To ensure that future development is consistent with protecting and maintaining the largely rural character of the Parish
2. To promote a balance of social mix and age distributions within the Parish
3. To safeguard the Parish character and heritage with particular regard to design
4. To avoid housing development in areas prone to flooding and unsustainable locations

COUNTRYSIDE AND ENVIRONMENT

5. To protect and enhance the natural environment and tranquility of the Parish
6. To conserve and enhance areas of natural habitat

LOCAL ECONOMY

7. To encourage appropriate businesses within the Parish

TRANSPORT AND MOVEMENT

8. To encourage cycling, walking and public transport services

COMMUNITY COHESION

9. To maintain and foster Horam's community spirit

Find out more about the Plan by attending the Annual Parish Meeting on Wednesday 20 April, 7:30pm, Christ Church, Horebeech Lane.

Please tell us what you think by completing the survey on the Parish Council website.

Please respond by Monday 16 May 2022

Appendix B: Summary Posters

YOUR PARISH, YOUR PLAN

HORAM PARISH NEIGHBOURHOOD PLAN

Horam Parish Council is preparing a Neighbourhood Plan and would like your views on how the Parish might change over the next ten to fifteen years.

Neighbourhood Plans are a powerful opportunity for the community to have their say and make a difference. They can establish planning policies that shape and influence future growth and development.

Wealden District Council is preparing a new Local Plan. This will establish how much growth might take place in the Parish. The Neighbourhood Plan can help shape what any new growth might look like and how it can be planned and designed to benefit existing and new residents and businesses.

But a Neighbourhood Plan can be about more than planning policies. It can also establish what improvements are required across the Parish including, for example, new infrastructure that might be required.

The Parish Council has prepared a set of objectives for the Plan and would like your views on these. Responses will help us shape a Plan that speaks for the whole community.

Many communities all across the country have been preparing Neighbourhood Plans. This is an exciting opportunity to influence change in Horam. Please tell us what you think.

Please tell us what you think by completing the survey on the website: <https://horam.com/>

Alternatively, a paper copy of the survey can be completed. Please collect and return to:
Horam Parish Council, The Horam Centre, 3, Bank Buildings, High Street, TN21 0EH

Survey

YOUR PARISH, YOUR PLAN

HORAM PARISH NEIGHBOURHOOD PLAN

Your views

The Neighbourhood Plan is a Plan made for the community, by the community. We are eager to hear your views on the Neighbourhood Plan.

What do you think the future holds for the Parish? Do you agree with the objectives for the Neighbourhood Plan? Do you have any other ideas or suggestions? Please let us know by completing the survey by 16th May 2022.

Your comments will help inform planning policies and projects that will shape change in the Parish over the next ten to fifteen years.

Next steps

We will continue to work with you to shape the Neighbourhood Plan for Horam, and ask for your views on emerging policy ideas. Once the Neighbourhood Plan has been finalised, it will be subject to examination and referendum.

This entails a public vote, whereby residents of the Parish of a voting age will be able to vote on whether the Plan should come into force.

If more than 50% of voters are in favour, the Neighbourhood Plan will be formally ratified (or 'made') and will become a statutory document which must be considered when determining planning applications within the Parish.

Please tell us what you think by completing the survey on the website: <https://horam.com/>

Alternatively, a paper copy of the survey can be completed. Please collect and return to:

Appendix C: Poster Competition

POSTER COMPETITION

'FUTURE HORAM PARISH'

Win prizes, and see your picture in our Neighbourhood Plan!

Three prize groups: Reception + Years 1-2, Years 3-4, Years 5-6

Horam Parish Council is preparing a Neighbourhood Plan. This will set out how the Parish will change and develop over the next ten years. We would like your ideas.

Please draw a poster to show us what you think the Parish might look like in the future.

What jobs will people do? Where will people play? What sort of transport will people use?
How will you shop? What might the house of the future look like?

Please draw us a poster of your Future Horam in the space provided on the back of this poster.

Book vouchers will be awarded for the winning poster(s), which will be included in the Neighbourhood Plan once published.

Future Horam Parish poster competition entry form

Entries must be drawn on the back of this poster using the space provided

Appendix D: Questionnaire

YOUR PARISH, YOUR PLAN

HORAM NEIGHBOURHOOD PLAN QUESTIONNAIRE

Horam Parish Council is preparing a Neighbourhood Plan which will help to guide future change in the Parish. It is important that this Neighbourhood Plan reflects your ambitions and views.

We undertook a survey in 2020 and have used the findings of that to create a series of objectives for the Plan. These will help us focus on areas where we can influence change and prepare policies to be used to inform and determine planning applications.

We would like you to tell us whether these ideas are heading in the right direction, or not, and whether you have any comments on these.

You can return this questionnaire to Horam Parish Council (The Horam Centre, 3 Bank Buildings, High Street, TN21 0EH) or by completing online via the Parish website:

<https://horam.com/>

Please respond by Monday 16 May 2022.

Thank you!

PLEASE TELL US ABOUT YOURSELF

1) Are you (please tick all that apply):

A resident of the Parish	☐	Visiting the Parish	☐
An employee in the Parish	☐	A business or organisation in the Parish	☐
Other (please state)			

2) How old are you (please tick only one):

Under 18	18-25	26-35	36-45	46-55	56-65	Over 65	Would rather not say
☐	☐	☐	☐	☐	☐	☐	☐

PLEASE TELL US WHAT YOU THINK ABOUT THE EMERGING OBJECTIVES:

3) Residential Development

- To ensure that future development is consistent with protecting and maintaining the largely rural character of the Parish.
- To promote a balance of social mix and age distributions within the Parish.
- To safeguard the parish character and heritage with particular regard to design.
- To avoid housing development in areas prone to flooding and unsustainable locations.

a) Are these objectives heading in the right direction?	Yes	No	Not Sure
b) Do you have any comments on the objectives?			

4) Countryside and Environment

- To protect and enhance the natural environment and tranquillity of the Parish.
- To conserve and enhance areas of natural habitat.

a) Are these objectives heading in the right direction?	Yes	No	Not Sure
b) Do you have any comments on these objectives?			

5) Local Economy

- To encourage appropriate businesses within the Parish.

a) Is this objective heading in the right direction?	Yes	No	Not Sure
b) Do you have any comments on this objective?			

6) Transport and Movement

- To encourage cycling, walking and public transport services.

a) Is this objective heading in the right direction?	Yes	No	Not Sure
b) Do you have any comments on this objective?			

7) Community Cohesion

- To maintain and foster Horam's community spirit.

a) Is this objective heading in the right direction?	Yes	No	Not Sure
b) Do you have any comments on this objective?			

8) Do you have any other comments or ideas for inclusion in the Plan?
