While I have no problem with the plan itself, it doesn't go far enough in addressing the infrastructure problems that we already have.
I am totally against any further developements being made. As it stands at the moment, the sewage pipes are not adequate to cope with the already increased New Builds. The Pharmacy can not cope with increased prescriptions, some patients having to wait nearly 2 weeks! The schools are full, so increasing the population to the area will mean that the class size with increase, giving substandard teaching to the pupils.
The roads are becoming too congested and are in a bad state of repair.
Doctors surgeries can't cope. Getting an appt' is nigh on impossible. I understand this is an NHS problem, but increasing the population to our village or should I say Town, exacerbates the problem.
Unless these issues are addressed, I Stongly object to any New houses / estates being built beforehand.
The current residents quality of life is already deteriorating. Not to include this in the plan, is turning a blind eye to the problems that already exist
