Dear Sir/Madam,
Re: Strategic Housing and Economic Land availability assessment. And also Housing delivery local Plan Affordable Housing.

I was horrified when a neighbour advised me about SHELAA. I knew nothing about the plan for Little London Road and New Pond Hill, despite my land being affected on two sides. Surely I should have been advised of the possibility of my farm being next to a potential housing estate.

I consider this to be a completely unsuitable site and am surprised any people in this area would even think of letting their land go for building. Where the A267 and A265 join it has always been a dangerous junction, and New Pond Hill is a country lane, totally unsuitable for more property and traffic. To the best of my knowledge there isn't even a mains sewer. The junction with Pages Hill is a blind spot and there are often accidents. I do not believe this plan should be considered for any more houses, and object very strongly;

Yours faithfully,

[redacted]

Adrienne Gross
