Agenda item 5.6

TO NOTE THE END OF YEAR STATEMENT OF COMMUNITY INFRASTRUCTURE LEVY FUNDING FOR 2022/23

1.0 Summary

1.1 This report provides an update to members of the funds received through Community Infrastructure Levy in the financial year 2022/23.

1.2 The Community Infrastructure Levy (CIL) is a charge that local authorities (in this case Wealden District Council as the local planning authority) can set on new development in order to raise funds to help fund the infrastructure, facilities and services - such as schools or transport improvements - which are needed to support new homes and businesses in the areas.

1.3 The Town Council is required each year to report on the funds received through these developer contributions and the way in which the funds are being spent. This information then has to be formally provided to Wealden District Council.

1.4 Previously the Town Clerk has sought advice on what the funding could be spent on. It was advised that any funds received should be spent on:

"The meaningful proportion of CIL monies given to the local parish and town councils can be spent on anything which will help to mitigate the impact of the development on the town or parish – considered to be a form of infrastructure.

Specific advice given by the government on the way in which CIL must be used, states:

"The levy can be used to fund a wide range of infrastructure, including transport, flood defences, school and education facilities, hospitals (medical facilities), and other health and social care facilities (as per section 216(2) of the Planning Act 2008.

The definition allows the levy to be used to fund a very broad range of facilities such as play areas, parks and green spaces, cultural and sports facilities, academies and free schools, district heating schemes and police stations and other community safety facilities. This flexibility gives local areas the opportunity to choose what infrastructure they need to deliver their relevant Plan.

The levy is intended to focus on the provision of new infrastructure and should not be used to remedy pre-existing deficiencies in infrastructure provision unless those deficiencies will be made more severe by new development

The levy can be used to increase the capacity of existing infrastructure or to repair failing existing infrastructure, if that is necessary to support development.

1.5 Some of the funds received had been committed during 2022/23 to assist with the increasing costs of street light repairs and replacements. Uckfield Town Council owns a number of streetlights within the town, which East Sussex Highways maintain on our behalf. The cost of repairs, replacements, associated surveys and health and safety lighting surveys have increased substantially.
